Description

ROOF PATCH and REPAIR is a portable, easy to use, thick black aerosol mastic coating that seals water leaks and fills cracks and voids on most roofing surfaces. Provides an extremely durable sealer and coating that will not sag or drip in summer heat or crack or peel in winter cold. Sprays as a liquid, flows into low spots, cracks and crevices then dries to a thick, black rubberized coating. Great for asphalt and fiberglass shingles, built-up tar and gravel, single ply rubberized and granulated roofs, mobile home and RV roofs, flashings around chimneys, vents and skylights. Helps seal concrete foundations and basements from water seepage and hydrostatic pressure leaks. Provides an effective repair even when the surface is wet. Easy to carry, easy to apply. Eliminates mess, clean-up and burdensome pails.

For Use by

ROOF CLEANERS
ROOFING CONTRACTORS
CARPENTERS
MAINTENANCE CREWS
MUNICIPALITIES
SCHOOLS
PLUMBERS

Quickly Seals Leaks On

DRIP EDGES • MOBILE HOME & CAMPER ROOFS
FLAT ROOFS • OVERLAPPED SEAMS
